Via Claudia Augusta – Initial Notes

About 2000 years ago the adopted son of emperor Augustus, General Drusus realized over his military career the significance of well-maintained and quickly passable transport routes from the northern Roman provinces to the Mediterranean.

For that reason it was more than necessary to build a pass road to link the northern and southern parts of the empire divided by the Alps. The **Via Claudia Augusta**, completed within 60 years, is an exemplary sample of Roman construction and a masterpiece of antique engineering. With this road, the Romans had built the first proper mountain road across the Fern Pass and the Reschen Pass.

Nowadays the **Via Claudia Augusta** enables cyclists to experience a unique and stunning crossing of the Alps and to get to know the most beautiful sides of the former Roman domain. And thanks to organized transfers across the two passes you can do so without too much effort. Of course, it's still your choice whether to use the transfers or to use your own muscle strength.

The variety of different landscapes along the **Via Claudia Augusta** and also the many options offered make this bicycle tour a unique adventure which you have to experience for yourself!

Most travel offers of the following document are offered as either „Classic“ or „Sporty“ variation. The defining difference between the two versions is that the „Classic“ variations include transfers across both the Fern Pass as well as the Reschen Pass while the „Sporty“ variations only include a shorter transfer across Fern Pass. Also the daily stages of the “Sporty” variations are a bit longer and also include some serious uphill riding.

We offer Augsburg, Füssen and Bolzano as tour starting cities on a weekly basis. In case you would like to ride the **Via Claudia Augusta** from the Danube to the Adriatic Sea we also offer Donauwörth as an additional starting point on selected dates.

Aside the tour ending cities of Bolzano, Verona and Quarto d'Altino which are actually part of the **Via Claudia Augusta**, we also offer to end your tour at Lake Garda (at Riva del Garda or Peschiera del Garda).

The tours mostly runs along paved cycling paths and rural roads as well as less travelled back roads and village roads. Mainly on the northern part of the **Via Claudia Augusta** the paths can be on gravel some times. On the southern part, shortly before Feltre as well as in the area of Ponte della Priula (shortly before Treviso), you have to ride approx. 6 km on a well frequented road both times.

There are numerous signposts along the tour from the north down to Verona or also to Lake Garda. Between Feltre and Quarto d'Altino the official signposts are quite rare but especially in that area as well as along the whole tour, you can easily find the track with our own signs (you will read more about that after having booked) and therefore you can enjoy the surroundings and variation in landscapes.

We hope you enjoy „studying“ the following offers and would be happy to „go along with you“ along the Via Claudia Augusta and help you with our services.

Day 2: Augsburg – Landsberg (approx. 50 km)

The place name Augsburg derives from the Roman name of the town „Augusta Vindelicorum“, which was founded in 15 B.C. under the rule of Emperor Augustus. Augsburg's popularity however, was established with its role as a Fugger town. Therefore, a visit of the Fuggerei, which is the world's oldest project for social housing still in use today, is almost a must. The stage to Landsberg is thought to be a comfy „run in“ on almost flat terrain.

Day 3: Landsberg – Schongau (approx. 45 km)

On the horizon you can already see the Alps but you get to enjoy the beauty of the region Pfaffenwinkel first. Schongau features a picturesque old town and almost completely preserved town walls.

Day 4: Schongau – Füssen/Schwangau (approx. 40 km)

Having left the old town of Schongau the cycling path along River Lech takes you into the Tyrol. Before heading over the border from Germany to Austria the beautiful fairy tale-like Neuschwanstein castle awaits you.

Day 5: Füssen/Schwangau – Imst (approx. 40 km | without Transfer approx. 70 km)

Today the tour takes us from Füssen to Reutte. From there our transfer brings you across Fern Pass in a comfortable way. From Fernstein castle you cycle past Nassereith and through the picturesque Gurgltal Valley to Imst. A "beery" adventure awaits you at the microbrewery at Starkenberg castle.

Day 6: Imst – Burgusio/Malles/Glorenza (approx. 55 km | without Transfer approx. 105 km)

After a hearty breakfast you cycle from Imst to Landeck. From there we take the shuttle up to Nauders. Soon afterwards you cross the border to Italy at Reschen pass and with it the main Alpine ridge. You cycle downwards towards Malles past Reschenstausee reservoir with the sunken church tower of Altgraun, one of the most famous photo motifs of Italy. Enjoy the first evening on South Tyrolean soil and enjoy strolling through the old alleyways of the town.

Day 7: Burgusio/Malles/Glorenza – Merano (approx. 65 km)

Today you cross the entire Val Venosta. The route leads from an altitude of more than 1,000m down to the town of Merano that is located at an altitude of 350m. Most of the route follows the course of River Adige. From your starting place this pleasant cycling stretch leads down to the smallest town of the Alps, the town of Glorenza. Past the marble town of Laas you get to Naturns and eventually – past the impressive Kastellbell castle – to the spa town of Merano. Enjoy an evening walk through town along the "Passer" promenade surrounded by subtropical flora.

Day 8: Merano – Bolzano (approx. 40 km)

There is plenty to see along this route: Niederlana's famous Schnatterpeckaltar, the largest Gothic wing altar in the Alpine area, the highest church tower of the South Tyrol in Terlan and a great number of fortresses and ruins on both valley slopes. The region also offers plenty of culinary delights: asparagus in Terlan, tasty chestnuts in Nals and last but not least excellent regional wines. Having left the beautiful old town of Schongau the cycling path along River Lech takes you into the Tyrol. Before heading over the border from Germany to Austria the beautiful fairy tale-like castle Neuschwanstein awaits you.

Day 5: Reutte – Landeck (approx. 65 km | without Transfer approx. 75 km)

Shortly after Reutte the "Ehrenberger Klause", a fortress built in the time of the Thirty Years' War that is well worth seeing can be visited. From Lermoos or Biberwier respectively you can take the VCA-Pickaback shuttle to cover the demanding route up Fern Pass. From Fernstein castle you cycle past Nassereith and the picturesque Gurgltal Valley to Imst. A "beery" adventure awaits you at the microbrewery at Starkenberg castle. From the town of Imst you will pedal along Inn Valley to the town of Landeck.

Day 6: Landeck – Burgusio/Malles/Glorenza (approx. 85 km)

Next to river Inn the cycle way leads from Landeck to the so called *Oberes Gericht* and on to Pfunds. Past Pfunds the cycle way is on swiss state territory for approx. 10km. From Martina/Unterengadin you'll conquer 400m of height distance along the winding but not too steep road of *Norbertshöhe*. A short coast down to Nauders is followed by a short and easy uphill passage where you cross the border to Italy at Reschen Pass and with it the main Alpine ridge. You cycle downwards towards Malles past Reschenstausee reservoir with the sunken church tower of Altgraun, one of the most famous photo motifs

of Italy. Enjoy the first evening on South Tyrolean soil and enjoy strolling through the old alleyways of the town.

Day 7: Burgusio/Malles/Glorenza – Merano (approx. 65 km)

Today you cross the entire Val Venosta. The route leads from an altitude of more than 1,000m down to the town of Merano that is located at an altitude of 350m. Most of the route follows the course of River Adige. From your starting place this pleasant cycling stretch leads down to the smallest town of the Alps, the town of Glorenza. Past the marble town of Laas you get to Naturns and eventually – past the impressive Kastellbell castle – to the spa town of Merano. Enjoy an evening walk through town along the “Passer” promenade surrounded by subtropical flora.

Day 8: Merano – Castelfeder Holiday Region (approx. 50 - 60 km)

There is plenty to see along this route: Niederlana’s famous Schnatterpeckaltar, the largest Gothic wing altar in the Alpine area, the highest church tower of the South Tyrol in Terlan and a great number of fortresses and ruins on both valley slopes.

After a short stop at South Tyrol’s capital city of Bolzano you have a wonderful occasion of refreshing your legs at Lake Caldaro. Today’s tour ends at Castelfeder Holiday Region with the towns of Ora, Montagna, Egna and Salorno, which is where the German speaking South Tyrol ends.

Day 9: Castelfeder Holiday Region – Levico Terme (approx. 60 - 70 km)

You should have managed to pick up a couple of Italian words before you continue to pedal on along River Adige to Trento where you see the old town with its Dome and Castle of Buonconsiglio. The sporty highlight today are about 600 metres of altitude difference up to Civezzano and Pergine Valsugana. Just a couple of kilometres more and you reach Lake Levico which will make you forget the struggle ;-)

Day 10: Levico Terme – Feltre (approx. 65 km)

A beautiful tour on a new cycle path from Levico Terme along River Brenta to Borgo Valsugana and Primolano awaits you. From here you have to take a regular road up to Arsie and Fonzaso in order to finish in Feltre, one of the most important historical cities.

Day 11: Feltre – Pieve di Soligo (approx. 50 km or 60 km via Praderadego-Pass)

Today you’ve got two options. Either you take the hilly but not too exhausting road through the Prosecco vineyards or you take the sporty road and pass by Lentiai and the impressive Praderadego-Pass (approx. 900 Altitude difference). Pieve di Soligo is definitely perfect to relax after a “harder” day.

Day 12: Pieve di Soligo – Quarto d’Altino/Venice (approx. 65 km)

You have to hit the pedals just one more time in order to get to Venice. On the way you find some real highlights too. Right past Pieve di Soligo, still in the middle of the prosecco hills you see Castello San Salvatore throning. Soon after Ponte Priula you arrive at the art and radicchio-town of Treviso which is finally followed by Quarto d’Altino, a small town very close to the original start of Via Claudia Augusta.

Day 13: Excursion to Venice – Overnight stay again in Quarto d’Altino

Set aside your bike and relax while you take the train in approx. 20 minutes to the train station Santa Lucia of Venice. This is the perfect initial point to explore the uncountable alleys and channels of Venice. Have a look at Piazza San Marco and maybe even treat yourself with a gondola ride...

Castles of Neuschwanstein and Hohenschwangau lead the way towards Reutte. Shortly after Reutte you have to overcome a short stretch up to Ehrenberger gorge/Ehrenberg castle ruin. You now cycle across the Tyrolean "Ausserfern" until you reach Biberwier. From there our transfer brings you across Fern Pass in a comfortable way. The stretch from county capital city of Imst to the next county capital city of Landeck follows the cycle way along River Inn/*InnRadweg*.

Day 3: Landeck – Burgusio/Malles/Glorenza (approx. 85 km)

Next to river Inn the cycle way leads from Landeck to the so called *Oberes Gericht* and on to Pfunds. Past Pfunds the cycle way is on swiss state territory for approx. 10km. From Martina/Unterengadin you'll conquer 400m of height distance along the winding but not too steep road of *Norbertshöhe*. A short coast down to Nauders is followed by a short and easy uphill passage where you cross the border to Italy at Reschen Pass and with it the main Alpine ridge. You cycle downwards towards Malles past Reschenstausee reservoir with the sunken church tower of Altgraun, one of the most famous photo motifs of Italy. Enjoy the first evening on South Tyrolean soil and enjoy strolling through the old alleyways of the town.

Day 4: Burgusio/Malles/Glorenza – Merano (approx. 65 km)

Today you cross the entire Val Venosta. The route leads from an altitude of more than 1,000m down to the town of Merano that is located at an altitude of 350m. Most of the route follows the course of River Adige. From your starting place this pleasant cycling stretch leads down to the smallest town of the Alps, the town of Glorenza. Past the marble town of Laas you get to Naturns and eventually – past the impressive Kastellbell castle – to the spa town of Merano. Enjoy an evening walk through town along the "Passer" promenade surrounded by subtropical flora.

Day 5: Merano – Castelfeder Holiday Region (approx. 50 - 60 km)

There is plenty to see along this route: Niederlana's famous Schnatterpeckaltar, the largest Gothic wing altar in the Alpine area, the highest church tower of the South Tyrol in Terlan and a great number of fortresses and ruins on both valley slopes.

After a short stop at South Tyrol's capital city of Bolzano you have a wonderful occasion of refreshing your legs at Lake Caldaro. Today's tour ends at Castelfeder Holiday Region with the towns of Ora, Montagna, Egna and Salorno, which is where the German speaking South Tyrol ends.

Day 6: Castelfeder Holiday Region – Belluno Veronese (approx. 85 - 95 km)

You should know a couple of Italian words by now ☺ Ride along River Adige towards Trento where you can visit the old town with its dome and Castle Buonconsiglio. After small towns like Rovereto, Pilsante and Avio you reach Belluno Veronese. The village of Veronese is especially known among gourmets, because the best wine of all of Italy has been grown here since the 15th century. Still today you can enjoy different wines with traditional fish dishes in the numerous guesthouses of the town. Although Veronese is only 6km from Lake Garda and located below a hill it is a spot off the beaten tourist tracks. Enjoy the peace and rural ambiance of this village.

Day 7: Belluno Veronese – Peschiera del Garda (approx. 80 km)

Verona almost in sight, you have to overcome a short ascent in order to reach the city of Romeo & Juliet.
